TEXAS IN TYPE.

TEXAS CROPS AND WEATHER.

The weather is as fine as could be wished, says a correspondent at Paradisc. Everyone is busy gathering cotton and corn. There will be about 950 bales of cotton ginned at this place this season.

Rain is greatly needed on the Nueces county ranches. Tanks that did not "go dry'' at any time during last summer are now dry, and cattle in many sections have had to be driven a long way for water. The ground being very dry is not in a ploughing condition, and the grass is not what it usually is at this season of the year.

Three thousand bales of cotton have been bought and paid for in this market in the last few months, says the Mansfield Chronicle. This means that 7000 bales will be marketed here next season.

CHICO, Nov. 29 .- The co ton through this section is about all gathered. The gengeal yield has been from one-eighth ourth bale per acre.

ox, Nov. 29 .- The acreage in will be more than doubled this The growing wheat looks fine at present, and should Providence continue to smile on us Wilbarg er will live on the fat of the land next year.

The Methodists of Kaufman will have Ev ngelist Inge with them during the last of December.

The Breckenridge hall, donated to the State university, will soon be ready for occupancy. The furniture was ordered some weeks since and is expected to arrive daily. The finishing touches are being put to the rooms and walks have been laid out from the hall to the university building. Mr. H. B. Beck has been appointed steward and the hall will be under his care, subject to regulation and supervision of the faculty. The neademic students will be given prefer-ence and they will be allowed to choose rooms according to seniority.

The Presbyterian church at Cisco has een thoroughly renovated and made as ood as new. It was the work of the Ladies' aid society.

Lumber from San Angelo has been sent to Emerald for a new school house. The new Christian church which is just finished at Sherwood, says the Sau ance. A public parade, with a banquet Angelo Enterprise, is one of the uestest and ball at the courthouse to-night comlittle houses of worship in this country. It is comfortably scated and well lighted. It was dedicated yesterday morning in a beautiful and impressive manner by Rev. A. J. Bush. There was no collection taken to pay off indebtedness, as it was all paid for principally by the few members of that church. Mr. Bush will protract the service through this week.

EDDY, Nov. 29 .- A supper was given on last evening, the 28th, by the Eddy high school, to increase its library fund. Adarge crowd of the friends and patrons were in attendance to show their interest in the upbuilding of our school. A bountiful supper was provided, to which all did ample justice. The children were out in force and had, from appearances, a giorious time. After all expenses are paid, the proceeds will amount to about The thanks of the community are due the good women who worked so faithfully to make it a grand success.

Cuico, Nov. 29 .- The contemplated school building will soon be in course of construction. One carload of material has been received and a moster work man employed to superintend the work TERRELL, Nov. 29. - Rev. F. A. Rosser has returned from conference in time to fill his pulpit to-morrow.

SHERMAN, Nov. 29 .- Rev. Dr. J. S. Moore received a telegram from J. G. Tanner to-day in which he says that the Pitch & Hartson, this city gets an endowment of \$75,000. Mrs. MacGreagor died in Houston on the with instant. She was the widow of the late Dr. MacGreagor, one time president of Austin college, now one of the most

dall of Hopkinsville, Kv., has arrived to Waco with his family and will preach Sunday afternoon at 7:30 o'clock in the First Baptist church. Rev. Mr. Kendail has located here, taking the piace of Rev. V. G. Conningham as city mis-Mr. Cunningham takes pastoral charge of the Second Baptist church of Waco.

Hourishing institutions in the state.

TEXAS PROGRESS.

The Windsor, Abilene's magnificent new hotel, will be opened on Decem-

The contract for beginning the work on Galveston's new harbor, for which the S6 200,000 appropriation was made. will doubtless be let within the next ninety days, from which date there will be no cessation of labor until deep water is a fact. Thus says the Evening Trib-

Although San Antonio at present is in essession of eleven banks, says the Times, the general impression has been that there was room for another and larger monetary institution than at present enjoyed by the city, and there have been rumors of the establishment of another national bank in this city. Of these rumors nothing debulte could be traced until quite recently, when it was learned that a new national bank of \$250,900 capital was in a fair way of be-Among ing established in this city. Among those interested in the project are Messrs, Hugo & Schmelizer, and the firm of Halff & Bro. A Mr. Brown of Brenham is to be the cashier, and there are also other Brenham and Austin people interested in the scheme.

It is stated on good authority that contracts had been closed for the erection of eleven cottages in the east end, says the Galveston Tribune. Mr. L. J. Watson is authority for the statement that contracts for six additional residences have been closed to be erected in the Denver resurvey. These houses are to cost from

\$8000 to \$5000 each. Jacksboro is to have a first-class lum-

ber yard soon. There was a special meeting of the board of aldermen Saturday, says the Yoakum Sun, and the contract for the waterworks was signed. Twenty thousand dollars in bonds were ordered engraved. M. P. Kelley, president of the waterworks company, has twenty wells at the creek. He tested one a few cays ago and finds that it affords 100,000 gallons daily. He has an order placed and now being shipped for \$25,000 worth of pipe, machinery, etc., which will arrive re inside of six weeks. With favorable weather and no unforeseen backsets a good system of waterworks will be in

operation by the 1st of April. A banking institution is sadiy needed in Alvord and would most assuredly pay its stockholders, says the Budget. During the fall and winter the vast amount of business transacted in our town would make a banking business highly profitable, and during the spring and summer our immense protuge trade would at least give a fair business.

TERRELL, Nov. 29. - The asylum artesian well has not reached water yet. At last accounts the contractors were working in a limestone rock about two thousand feet in the earth.

VERNON, Nov. 29 .- The immigration association of Vernon has been merged into the board of trade, and the new directory met last night and outlined business that will be brought before the board Monday night. The meeting last night was most enthusiastic. The engineers left this morning for Red river to make soundings for an iron bridge across the stream. Wilbarger is putting about \$100,000 in bridge and county road improvements. About \$75,000 worth of improvements are going on in the city, outside of public works.

WACO, Nov. 29 .- A good flow of hot water was struck in the Prather well this morning at a depth of 1800 feet. The water is exactly the same as the other artesian wells at Waco, being 103 degrees in temperature, and almost entirely free from solid matter. This is geyser No. 8 for Waco.

TEXAS MILLS AND FACTORIES.

Palestine will build a mattress factory. The contract has been let for the work of erecting the building for the factory.

The Memphis Appeal-Avalanche has the following: Mr. Emil Bohn of Brenham, Tex., has been at Gaston's for several days. His mission was unknown until be left yesterday, but it is now given out that he came here to organize a paper mill to manufacture paper from cottonseed hulls, and that he was successful in forming the company. It is intimated that several Memphis gentlemeu are interested in the enterprise and that it is to be an immediate go.

A movement is on foot among the business men of Cuero for the erection of a canning factory at that place before the next season opens. The plant will cost about \$5000, and the working enpital about as much more. The board of trade have the project in hand.

TEXAS NEWS AND NOTES.

BIG SPRINGS, Nov. 28 .- The Knights of Pythias organized the uniform rank here to-day. Many Knights from Baird, Midland and other points were in attendprise the ceremonies. This lodge ganized with about thirty-five or forty members. Pythianism in this place is thriving and a very strong lodge has organized for the past year, and new members are received at nearly each BAIRD, Nov. 28 .- The Enights of

Pythias, Baird lodge, No. 47, held their annual election of officers last night for the coming year, which resulted in the election of W. C. Powell, C. C.; J. E. Frazier, V. C.: G. B. Elv. P.: Frank Dorsey, K. of R. and S.; W.C. Straube, M. of E.; C. S. Rice, M. of F.; W. G. Bowlus, M. at A.; L. C. Lesure, I. G.; J. E. W. Lane, O. G. Representatives to grand lodge: E. E. Solomon and H. Schwartz, Trustees: August Weiks, Ed Coppins and H. Schwartz.

TEXAS JOURNALISM.

The Yoakum Sun is going to make a Christmas present of an extra edition to the surrounding country. The sun is in the swiin.

Editor Pardue of Itasca Mail wrote 'finis'' across the editorial column of that valuable paper. Mr. Pardue has done some good work and the state press will be sorry to see him step out of the truces, although he does it gracefully and well. He is succeeded by Messrs. who come out with will of Mrs. Harriet MacGreagor was the announcement that if the Mail isn't opened, and that the Austin college of kept up to its present high standard it will be because they can't. In that case the Mail is all right.

The Gainesville Daily Register has ceased publication after more than four years of service. The Register has made good fight, and was by all means a WACO, Nov. 29 -Rev. John G. Ken- better paper than a good many that still continue to show up regularly.

McKinney Gazette: The next issue of the Gazette will be run on a new cylinder press. Now maybe you don't think there is a world of pleasure in the above simple announcement. If you don't then you have never pulled a double back-action G. Washington hand press.

The Mansfield Chronicle is now in the hands of Messrs. Huitt and Putnam, they having bought out Dr. E. L. Bill. The paper will not suffer any in the change, and THE GAZETTE can already see a new hand at the helm. But it is all right, Slade.

The Cuero Star, in its last issue, began to twinkle entirely by its own light. and its magnitude now has moved up several notches. The editors, Messrs. Crip and Chadock, need fear no disappointment in the change. That lies the other way.

Mr. Henry East is now proprietor of the Gillespie County News. Editor Mc-Ginnis is out.

The Liberty Vindicator has passed its third milestone and Editor Chambers has his eye on the future, but he need not fear to size-up what he has done. It is a pretty good promise of what he will do.

MINEOLA.

A Resident of Thirty-One Years in Wood County tives Some Facts-

The Carden Spot of the World for Fruit Growing -Mineola the Frincipal lown of the County.

To the Gazette.

MINEOLA, TEX., Nov. 28, 1890.

DEAR SIE-I notice in THE GAZETTE of November 16 a communication from here signed ' 'Mincola. '' Now I agree with "Mineola" in all he says about the country and about ribbon cans except one thing. I think the estimate that he puts the acreage in this county of land suitable for growing ribbon cane far too low. I am what you might call an old settler here. I have seen thirty-one more or less successfulded crops grown in this county, and never saw a fanure, and during the thirtyone years that I have lived in Wood county I have been a practicable surveyor and have penetrated almost every nook and corner of Wood county, and I wish to speak of another growing industry that is fast coming to the front in this county, to-wit., the growing of all kinds of fruit. It is now conceded that East exas is the garden spot of the world for fruit growing, and Wood county is the banner county in Texas for fine fruit. I wish to state that we have in Wood county the linest lands in the world for fruit; the soil on the high lands is of a grey loam and fine as flour. but of sharp grit, so that the water falling on it sonks up and drains out through natural drainage, the sub soil being of a light sandy nature too fine to permit of the soil from the surface going down through it, and yet porous enough to drain out the superfluous water that may fall during rainy seasons, so as not to injure the roots of the fruit trees that feed near the surface. Until recent years our population, all

being poor, kept their attention on the cotton crop, thinking that the only money crop that was adapted to this country. Finally now and then a farmer, after getting his land all palit out, began to experiment with a few fruit trees, and others seeing his success would fail into line until we now have some of the most flourishing fruit farms in this county that are to be found anywhere on the face of the globs. I will only mention one, to-wit, the Mammoth orehard situated one mile east of Mineols, in plain view of the Texas and Pacific railroad, owned by S. Zuckerman of Chicago and that prince of big-hearted Chicago and that produced the East Texans L. R. Graham of Mincola. who is also overseer and general til take who is also oversee, and take of the Manmoth orchards all over pleasure in showing tarm and day they his orchard farm any day they call out he sair. Graham informs me Mr. Frank Gohmert and Miss Meta call qualified off. Graham informs me calline, Cuero, November 20.

Mr. Henry Dennis and Miss Analysis of be on hand with a few carloads of early strawberries to regale and liven up

the berry-loving population of Chicago and the Northwest generally from his twelve-acre strawberry bed, and a little inter on from his 150 neres of choice peach trees he can supply several carloads of fine peaches to revive the famishing appetites of the Panhandle of Texas immigrants who have been lured on to that great wheat country, and still later on from his eighteen-acre v neyard will supply carload after carload of the finest grapes ever grown-California not excepted-and then if they want an apple, sweet and juley. well ripe through and through, guaranteed to keep well anywhere in Texas all winter, just give him an order for a few

Now we have very few fruit farms as Mrs. Mollie J. Holbrook, near Noon- | large as the Mammoth, but we have the land to make them on thousands and thousands of acres of it in Wood county to be for from \$3 to \$10 per acre, according to proximity to shipping facilities, and it hardly can be said that any portion of Wood county is far from a railroad. We have the Texas and Pacific traversing the whole width of the county from east to west. We have the International and Great North-ern from the south line to the wide-awake city of Mineola, and from Mincola northwest we have the Missouri, Knusas and Texas to the Rains county line, and then we have the East line traversing the northern portion of the county two-thirds of the way from the east to the west of the county, to anywhere in this county is in convenient distance to a shipping point.

But Mineola is the principal town of county, and I wish to note just here that no town in Texas can furnish a set o business men that can be more polite or accommodating to immigrants than are the citizens of Mineola. All immigrants coming into this county have only to show an industrious, moving spirit to elicit the approbation of our business men, who have ample capital to supply every farmer in the county with one year's rations if they need it, and all a farmer has to do is to start out in the spring as if though he was going to cultivate his

crap and he can obtain on a credit all upplies necessary to make his crop.

the country. Our cattle and horses now on the range are fat, and they always remain so up to about February, and will live and do well until new grass comes up in April. Though without feed during February and March they sometimes fall off some before the new grass is up sufficient to feed upon. 1mmigrants coming into this country can always find plenty of cleared land to rent until they can open up a farm of their own. Land is to be had either for standing rent so much per acre, payable in the fall or for a part of the crop grown on the land. OLD SETTLER.

The Holiday Season.

The month of December is at hand. and every one is talking holiday pres-A. J. Anderson carries everything, from a wooden jumping-jack to the latest mechanical toy, from cent to a \$75 doll

To polish knives.

The Long Celebrated Play, With its Popular Author in the Leading Role, Scores the Usual *uccess-

Mr. Milton Nobles in his own famous comedy drama of the above title is perhaps at his best, and brings to bear not only his splendid stage business, but also an order of acting better adapted to his talent than the somber and heavy

character in "From Sire to Son," produced here also, as noted. The Phoenix, while pre-eminent in its arrangements, verges too much on the startling at times. Yet its portrayal of natural incidents and every day life, with genuine humor, is readily grasped by all, and makes its deserve its long

It is scarcely necessary to again remark upon the versatility and captivating efforts of Mr. Nobles. He shines as the Bohemian and "Jim Bledsoe." Mr. Young again threw life and ease into the heavy villain, as Lestie Black-

Mr. Howard was as irresistible in Moses Solomon as "Old Grimes." Miss Lambert, as was to be expected drew forth admiration for her Sadle and

Alice Blackburn, though calling for several requisites, found them in Miss A good house was present to thoroughly enjoy the whole performance-one that

The orchestral work done during the Nobles engagement deserves special Professor Connor has surounded himself with musicians of talent, and during this season their work has been commented upon as superior.

The rendition of "Forge in the For at." a descriptive ldyll, the all with the full effects of calcium, anvila and electrie lights, wrung encores from sach audience to which it was played. It is by the introduction of such pleasing innovations that Manager Greenwall will make his house a success.
